What is the U12 Competition Introduction Program?

The U12 Competition Introduction Program is a program that provides U12 aged participants the opportunity for further skill development and to get a taste of the competitive stream of play before they opt-in at U14.

The Competitive Introduction Program focuses on skill development, ringette specific skills (shooting, passing, receiving the ring), physical literacy, and basic ringette strategy including both offensive and defensive tactics.

The program exemplifies ethics, fairplay, and the TrueSport Principles working not only on ringette skills but also on psychological and mental skills. Throughout the program, coaches will emphasize individual and team goal-setting and will strive for improvement and growth. Athletes will be assessed throughout the program and their progress will be recorded and shared with the individual athletes through the U12 Competition Introduction Program Card.

The U12 Competition Introduction Program is progressive, organized, varied, and offers participants the opportunity to develop and gain confidence in their sport specific skills while making new friends from across their region, and getting to experience a competitive training environment.

General Timeline

- August → -Coach Selection
- September → -Registration Opens
-Coaches Meeting
- October → -Ice Times Begin
-Coach & Parent Meeting
- November → -Registration Closes
- December → -Team Draft
-First Team Social
- January → -Team Training
- February → -Year End Competition
-Program Year End Social

Who is the program for?

This is an athlete centric program and is open to all U12 aged athletes, both male and female, who are confident in their skating and ringette abilities and are seeking a more competitive athletic experience. Athletes who are new to skating or ringette are encouraged to further develop their skills in the club stream. The Competition Introduction Program is for athletes in the late Learn to Train stage of development in the Long Term Athlete Development (LTAD) program.

LTAD defines the late **Learn to Train** stage of development as developing accuracy and consistency in skill execution.

Athletes are consolidating accelerations, crossovers, sharp turns, and transitions as well as deeks, shooting, and checking all within a controlled environment.

Goalies are consolidating stance, style, skating/ring skills, mobility, positioning, and distribution.

Program Overview

On-ice sessions throughout the season will focus on periodization of skills (progression) and may also include exhibition play at the end of an ice time. Through October, November and December, sessions will be approximately once per week, or once every two weeks, include the entire group, and will focus on individual skill and tactical development. In December, coaches will draft teams, and host a team social. Starting in January, exhibition games begin, having up to 2 ice times a week. The number of ice times, however, will not exceed 3-4 times per week in combination with their U12 club teams.

Once placed on teams, each group will have approximately 1 practice session per week, and 2-3 exhibition games in the months of January and February. Finally, in February teams will participate in the year end competition at the Pacific Ring Tournament to showcase their improvement and growth.
